Towards BIMSTEC-Japan Comprehensive Economic Cooperation: Bangladesh Perspective

The Bay of Bengal Initiatives for Multi-sectoral Technological and Economic Cooperation (BIMSTEC) is the youngest regional cooperation spanning across South and Southeast Asia. This book deals with possibilities of expanding and depending Bangladesh-Japan cooperation in trade and investment, transport connectivity, energy, technology, fisheries and tourism within the framework of BIMSTEC. In the process, the issue of multilateral cooperation amongst the BIMSTEC countries has been deliberated. As the BIMSTEC member countries themselves as well as Japan are verified in size of population, economy and stages of development, dynamic complementarities to forge win-win cooperation stands a fair chance.
Towards BIMSTEC-Japan Comprehensive Economic Cooperation Bangladesh Perspective
